

Site risk assessment record

Berkshire
Buckinghamshire
Oxfordshire

Location: Woolley Firs including: Buildings, estate areas, education land, arable land, chalk bank, arboretum and fields	Date of assessment: 03/04/2018	Nearest postcode: SL6 3LJ	Main entrance OS Grid Ref : SU 851 800
---	--	-------------------------------------	--

Hazards/hazardous events	Who is affected?	Typical outcome	Precautions	Risk Level LxH=RL
Uneven / slippery ground (e.g. due to roots, stones, manhole covers and muddy paths) or branches across paths causing slips, trips or falls.	Public, school groups, BBOWT workers.	Bruises, sprains, minor cuts and grazes	<ul style="list-style-type: none"> Visual check of area by staff / volunteer before use by school groups – remove hazard if possible or report problems to staff. Warn of uneven ground / trip and slip hazards or possibly avoid area. Use non-slip paint where appropriate. 	Likely x Slight harm = slight
Thorny bushes/hedges along paths and in work / education areas.	Public, school groups BBOWT workers.	Cuts and grazes, Puncture wounds, eye damage	<ul style="list-style-type: none"> Ensure paths are kept clear. Provide safety glasses if working in thorny area. Visual check of area by staff / volunteer before use by school groups –overhanging thorn branches to be removed. 	Unlikely x harmful = slight
Conservation work on site (A public footpath runs through the northern part of the arboretum, and one runs adjacent to the northern boundary of the arable land through Fox Field, and out through the barn area; and permissive paths run through the farmed part of the estate)	Public, school groups BBOWT workers.	Injury to passer by from conservation work taking place	<ul style="list-style-type: none"> Warn people working on site and put up suitable signs to advise site users when work is being done. Visiting families/ school group leaders warned to avoid these areas. 	Unlikely x harmful = slight
Plants that cause stings and irritation such as nettles	Public, school groups BBOWT workers.	Rash / discomfort from nettle stings	<ul style="list-style-type: none"> Warn visiting school groups of nettles and where possible, point out areas where these plants grow. 	Likely x slight harm = slight
Barbed wire fences around grazed fields and woodland.	Public, school groups BBOWT workers.	Scratches, entanglement	<ul style="list-style-type: none"> Check fences are in good condition. Warn school groups to stay away from barbed wire. 	Unlikely x slight harm = trivial

	Slight harm	Harmful	Very harmful
Unlikely	Trivial	Slight	Moderate
Likely	Slight	Moderate	Substantial
Very likely	Moderate	Substantial	Intolerable

<p>The arboretum contains dead branches in trees, there may also be dead standing trees – risk of falling branches / trees. The area is closed to the general public but there is education access in the arboretum.</p>	<p>Public, school groups BBOWT workers.</p>	<p>Head injuries, cuts and bruises, severe injury or death</p>	<ul style="list-style-type: none"> • No visiting families / school groups to enter arboretum in high winds. • Warn visiting families / school groups not to enter woodlands / arboretum in high winds. • Conform to COP 31- tree safety assessment and any areas worked in are to be checked for dangerous trees. No tree work should be carried out in high winds. • Trees noted as particularly dangerous will be cordoned off with hazard tape. 	<p>Unlikely x very harmful = moderate</p>
<p>Poisonous plants such as hogweed, and fungi. Allergens in plant material.</p>	<p>Public, school groups BBOWT workers</p>	<p>Hogweed burns from contact, poisoning from ingestion of fungi, anaphylaxis.</p>	<ul style="list-style-type: none"> • Warn where necessary not to eat fungi, berries or other plant material. • Visual check of areas to be visited by groups, remove plant/fungus if possible or relocate activity if necessary. • Where possible, advise children to wash hands before eating • Avoid nut trees completely if child in group has known risk of anaphylaxis. • Mobile phones to be carried by staff when out on site. • Wear gloves when handling prickly or toxic plants. And wash hands after handling such material. 	<p>Unlikely x very harmful = moderate</p>
<p>Grazing animals may be present in fields.</p>	<p>Public, school groups BBOWT workers.</p>	<p>Contact injury including crushing, bites from ponies,</p>	<ul style="list-style-type: none"> • Ensure advisory notices displayed when stock on site. • Advise work groups to be calm and quiet around stock – if contact is unavoidable. • Warn visiting families / school groups not to approach livestock or enter fields with livestock in. 	<p>Unlikely x harmful = slight</p>
<p>Farm operations, including spraying, moving tractors, hedge cutting, and combining, occur on the farmed land</p>	<p>Public, school groups, BBOWT workers</p>	<p>Injury from contact with vehicles, being struck by hedge debris, or possible contamination by spray drift</p>	<ul style="list-style-type: none"> • Post notices when hedge cutting on site. • School groups told not to visit arable fields while spraying or other hazardous activities taking place. • Farmer to be informed when groups accessing field margins 	<p>Unlikely x harmful = slight</p>

	Slight harm	Harmful	Very harmful
Unlikely	Trivial	Slight	Moderate
Likely	Slight	Moderate	Substantial
Very likely	Moderate	Substantial	Intolerable

<p>Risk of disturbing badgers on site through site activities, including management operations (especially use of plant machinery).</p>	<p>BBOWT workers (inc contractors), farm tenant, school groups.</p>	<p>Breaking the law by disturbing, injuring or killing badgers or damaging setts.</p>	<ul style="list-style-type: none"> • Site to be checked before work using machinery. Especially hedgerows where many of the holes are located. • A buffer zone of at least 20m to be adhered to for any heavy machinery or chainsaw use unless working under a licence or with NE approval. • Contractors to be informed before any work. • Maintain cordoning of existing sett, and inform session leaders/staff to be aware. • Staff to be aware of new sett locations as and when they arise and communicate to those affected as necessary. 	<p>Unlikely x harmful = slight</p>
<p>Stings from bees, wasps or hornets. There are bee hives at the north corner of Sawyers Field, otherwise bees and wasps are present throughout.</p>	<p>Public, school groups BBOWT workers.</p>	<p>Allergic reaction to stings</p>	<ul style="list-style-type: none"> • Avoid working around bee hives. • Sawyers Field to stay padlocked and groups only to enter when supervised. School group leader to keep children on north edge of field – do not walk past bee hives. • Avoid area completely if anyone in group has known risk of anaphylaxis. • Mobile phones to be carried by staff when out on site. • Be aware of any wasps & bees nests close by and do not get too close. • All volunteers / staff should declare any known allergic reactions and teachers provide information on booking form if pupils or others in their group have severe allergies. 	<p>Unlikely x harmful = slight</p>

	Slight harm	Harmful	Very harmful
Unlikely	Trivial	Slight	Moderate
Likely	Slight	Moderate	Substantial
Very likely	Moderate	Substantial	Intolerable

Disease through contact with livestock and/or wild animals' (including rats') dung/urine, ticks, and dirty water.	Public, school groups BBOWT workers.	Illness with leptospirosis (Weil's disease), Lyme disease, E.coli, Salmonella.	<ul style="list-style-type: none"> Warn school groups / families not to touch mouth or eyes while pond dipping. Cover cuts and abrasions with waterproof plasters / gloves. Advise washing hands after contact with water and before eating. Advise teachers of symptoms in case of subsequent illness and display information in Education Centre. (Refer to CoP 15 'Occupational Health and Hygiene'). Inform workers or groups to practice good personal hygiene, especially prior to eating. Advise groups and workers about dangers of ticks and importance of self examination. Lyme disease information displayed in car park 	Unlikely x very harmful = moderate
Railway line runs along southeast corner of the estate	Public, school groups, BBOWT workers	Injury from contact with trains, causing of accidents	<ul style="list-style-type: none"> No work likely to impact on railway by Staff – use certified contractors for tree works etc, also notify Network rail. No access to railway line. School groups not to use / visit southeast corner of estate. 	Unlikely x very harmful = moderate
Steep slope on chalk bank	Public, school groups, BBOWT workers	Slips caused by steep ground	<ul style="list-style-type: none"> Advise any groups/visitors to take care. 	Unlikely x harmful = slight
There is at least one “ hole ” in Home Close (origin unknown – well or cesspit maybe?); and one hole partially filled by main car park, as shown on map	Public, BBOWT workers	Injury from a fall, getting stuck and unable to climb out	<ul style="list-style-type: none"> Home Close Hole is fenced and covered, the hole by the car park has been filled and fenced from the main track. 	Unlikely x harmful = slight
Dogs on site – dogs approaching people or jumping up at people (especially children)	Public, school groups, BBOWT workers	Panic. Injury caused by dog jumping up. Dog bite.	<ul style="list-style-type: none"> Signs to be put in place asking for dogs to be on a lead when children present. Warn group not to approach or encourage dogs and to stay calm if dogs do approach. If possible, BBOWT staff to ask dog walker to put dog on lead. Mobile phones to be carried by staff when out on site. 	Likely x harmful = moderate

	Slight harm	Harmful	Very harmful
Unlikely	Trivial	Slight	Moderate
Likely	Slight	Moderate	Substantial
Very likely	Moderate	Substantial	Intolerable

Dog faeces , present along main permissive paths	Public, school groups, BBOWT workers	Sickness/diarrhoea from bacteria in faeces. Toxocariasis (an infection of the round worm <i>Toxocara canis</i>). Young children are at particular risk due to their weaker immune systems and greater chance of exposure.	<ul style="list-style-type: none"> Warn all groups to look out for and avoid dog faeces. Wear gloves if likely to come in contact with faeces and wash hands before eating. Signs in place to request that dog walkers pick up and bin faeces. If BBOWT staff see dogs defaecating, talk to dog owner if possible to explain the risks it poses to public / school groups. 	Likely x harmful = moderate
Members of the public on site (especially public footpaths) – ‘stranger danger’	Public, school groups, BBOWT workers	Abduction / Assault	<ul style="list-style-type: none"> Ensure group leaders and children know there are members of the public on site. Children to be under supervision of group leaders at all times. Remind children to stay with group leaders. School staff to be responsible for ensuring all children are accounted for. 	Unlikely x very harmful = moderate
Water in ponds, Dipping Platforms, Falling in water (see map)	Public, school groups, BBOWT workers	Drowning	<ul style="list-style-type: none"> Water is no more than 1.2 meters deep in either of the two ponds on site. Conform to COP 32 (Safety at Water Sites) – separate risk assessments available. 	Unlikely x very harmful = moderate
Power lines run across Brimstone and Home Close.	Public, BBOWT workers (incl contractors).	Electrocution or power cuts, especially for farm machinery operations	<ul style="list-style-type: none"> No work to be carried out by staff, with a chance of impacting on the lines, use only certified contractors, and advise any farm workers of their presence. School groups to be warned to stay away from power lines. 	Unlikely x very harmful = moderate
Risk of Legionella	Public, school groups, BBOWT staff, volunteers,	Disease/poisoning	<ul style="list-style-type: none"> Cold water: Temp should not exceed 20oC after 1 min flush (monthly check). Hot water: Temp should reach 50oC+ within 1 min flush (monthly check). Electric shower: Flush weekly. Taps in toilets and classroom not set to reach 50oC due to scald risk of children – so these taps flushed weekly. Checks to be recorded on Legionella Monthly Checks Report. 	Unlikely x very harmful = moderate

	Slight harm	Harmful	Very harmful
Unlikely	Trivial	Slight	Moderate
Likely	Slight	Moderate	Substantial
Very likely	Moderate	Substantial	Intolerable

Public highway and private roads on site – vehicles including cars, Land Rovers, farm vehicles, trailers, coaches, delivery lorries	Public school groups, BBOWT workers	Injury from contact with vehicles, and causing RTAs,	<ul style="list-style-type: none"> No work likely to impact on public highway by Staff – use certified contractors for tree works etc. Care taken when working by roadsides on site. Warn school groups to stay away from road, not to cross fences or go through any gates unsupervised. Warn groups to look out for vehicles on site. 'Children crossing' signs to be put in place on driveways on days groups visit. Demarcation rope put up either side of entrance 1. max 5mph signs to be erected at entrances 1 & 3 	Unlikely x very harmful = moderate
Inclement weather	BBOWT workers, school groups.	Sunburn, dehydration, heat exhaustion, sunstroke, colds/illness, lightening strike.	<ul style="list-style-type: none"> Advise teachers on appropriate clothing / footwear before visit. In hot weather BBOWT staff / vols encourage everyone to wear hats and sunscreen, drink plenty of water and stay in shade. In cold weather BBOWT staff / vols encourage everyone to wear warm and waterproof clothing. Provide shelter if required. BBOWT staff / vols adapt programmes accordingly. If icy/freezing weather is anticipated - paths, entrances up to buildings and concreted areas to be gritted, particularly entrances to Hasker House, Education centre, area storing waste/recycling bins & courtyard. If thunder storm is overhead, visitors advised where possible stay or move inside until it has passed. 	Likely x harmful = moderate
Moving around site - opening and shutting gates	Public, school groups, BBOWT workers	Trapped fingers, cuts, bruises	<ul style="list-style-type: none"> Advise all BBOWT workers and visitors that gates must be kept closed at all times when not in use. Advise school groups that group leaders should open and close gates. 	Likely x slight harm = slight
Broken glass on site , particularly as part of sub-soil in areas with history of domestic use eg edges of Home close and Fox field, and on public footpath next to chalk bank	Public, school groups, BBOWT workers	Cuts	<ul style="list-style-type: none"> No digging activities to be undertaken by school groups in this area. Where possible, warn group of broken glass when visiting chalk bank. care taken when digging holes, use gloves when handling soil. 	Likely x harmful = moderate

	Slight harm	Harmful	Very harmful
Unlikely	Trivial	Slight	Moderate
Likely	Slight	Moderate	Substantial
Very likely	Moderate	Substantial	Intolerable

Authorised shooting	Public, school groups, BBOWT workers	Injury from gun shot	<ul style="list-style-type: none"> Stalker has signed our agreement and complies to our terms (ie has their own insurance, suitably qualified). Stalker always liaises with Reserves Manager about timing of work. Shooting never undertaken at times when visitors are using Education Centre, ie only in the early morning/evening or night time. 	Unlikely x very harmful = moderate
Education Centre	Public, school groups, visitors, BBOWT workers	Fire Slips, trips and falls Cleaning substances	<ul style="list-style-type: none"> Conform to CoP Fire Safety and fire safety policy for Woolley Firs. No items to be left in stairs, hallways, landings Groups to be warned about 'lip' on bottom of French windows when this exit is being used by groups. Cleaning substances to be kept in separate locked cupboards and away from food items (COSHH compliant). 	Likely x slightly harmful = slight
Hasker House	Public, visitors, BBOWT workers	Fire Feminine Hygiene Hot water temperature extremely high – scalding/burns Slips, trips, falls Cleaning substances Mice faeces in kitchen drawers Injury or illness from workstation environment and equipment	<ul style="list-style-type: none"> Confirm to CoP Fire Safety and fire safety policy. Bins emptied by contractor monthly. Woolley Firs Caution – hot water signs. No items to be left in stairs, hallways, landings. Cleaning substances to be stored separately from food items (COSHH compliant). No grass seed/bird seed/other to be left in office. Kitchen cupboards/drawers to be cleaned regularly All staff to have workstation/display screen equip assessment. 	Likely x slightly harmful = slight
Smoking – covering all BBOWT properties, buildings and land	BBOWT staff and volunteers, all visitors, contractors to site	Fire	<ul style="list-style-type: none"> No Smoking Policy through-out all BBOWT properties, buildings and Woolley Firs site. Smoking restricted to area near workshops/new barn. Cigarette ends to be disposed of in cigarette bin. See Fire Safety RA & CoP. 	Unlikely x slight harm = trivial
Underground electrical cables running in 2 places across the courtyard, between plant room and Education Centre, and from the Modern Barn to Bassett and Pincke House	BBOWT staff and volunteers, visitors and contractors	Electrocution or power cuts especially from any plant machinery	<ul style="list-style-type: none"> No works to be carried near electrical cables as marked on map without consultation with FM. All areas to be cat scanned prior to digging. Care must be taken when digging holes, stop to investigate if pipes are reached. 	Unlikely x very harmful = moderate

	Slight harm	Harmful	Very harmful
Unlikely	Trivial	Slight	Moderate
Likely	Slight	Moderate	Substantial
Very likely	Moderate	Substantial	Intolerable

<p>Photovoltaic solar panels on Modern Barn roof – direct current running from panels to inverters then converted to AC current feeding Modern Barn, Workshop, Toilets, Education Centre, Hasker House, Pincke House & Bassett House</p> <p>Investigating panels on roof</p>	<p>BBOWT workers, contractors</p>	<p>Electrocution, power cuts, damage to system if not isolated correctly during other electrical work</p> <p>Falling from roof, damaging panels</p>	<ul style="list-style-type: none"> • System must be isolated using red/yellow switches at every property prior to electrical work being carried out. • No access to panels, except by authorised and contracted maintenance company, as appointed by FM. 	<p>Unlikely x very harmful = moderate</p>
<p>Underground water and sewage pipes occur in locations throughout the site. See map. Unmapped water pipes also exist across farm fields.</p> <p>Stop taps for each property marked on map.</p>	<p>Public. BBOWT workers, (incl contractors)</p>	<p>Damage to the pipe from digging, contamination by sewage leading to disease, and disruption of supply.</p>	<ul style="list-style-type: none"> • If unsure about ground - CAT scan prior to digging. Take care when digging holes, and stop to investigate if pipes are reached. 	<p>Unlikely x harmful = slight</p>
<p>Berkshire Barn – Internal and external floor uneven. Hay bales stored in stacks. Gypsy caravan stored.</p>	<p>Schools visiting the Education Centre, BBOWT workers, visitors and the Public</p>	<p>Fire</p> <p>Slips, trips and falls causing injury. General cuts and bruises.</p>	<ul style="list-style-type: none"> • Conform to CoP Fire Safety and fire safety policy for Woolley Firs. • Access to inside the barn restricted by use of security alarms and locks, to only be accessed by BBOWT workers/volunteers and contractors. • Schools to be supervised when using covered areas. • Signs to indicate no climbing on hay or caravan, areas to be roped off. 	<p>Unlikely x harmful = slight</p>
<p>Workshops, cellar (Hasker House), plant room, garage, livestock feed store (in modern barn), Modern Barn (see map for location) and the storage of tools and event equipment</p>	<p>BBOWT workers and contractors NO PUBLIC</p>	<p>Injury to person or damage to property/services</p>	<ul style="list-style-type: none"> • Access restricted by use of security alarms and locks & locked gates to authorised BBOWT workers/volunteers and contractors only. • All hand and power tools to be stored tidily and not left on the floor. • No items to be stored above head height. • No climbing on the roof. • Manual handling training to be adhered to when lifting items. Sack truck available for moving heavy items. • Steps down to cellar are <u>VERY</u> slippery when wet and can easily cause a fall. Extra care must be taken. 	<p>Unlikely x harmful = slight</p>

	Slight harm	Harmful	Very harmful
Unlikely	Trivial	Slight	Moderate
Likely	Slight	Moderate	Substantial
Very likely	Moderate	Substantial	Intolerable

<p>Asbestos & ACM (asbestos containing materials) present in buildings, known or unknown Asbestos currently known in corrugated roofing and side panelling of the Modern barn & workshop. No asbestos in Education Centre</p>	<p>BBOWT workers and contractors</p>	<p>Risk of exposure to asbestos fibres</p>	<ul style="list-style-type: none"> Any suspicions of ACM to be reported to County Head/FM immediately. No work to be carried out on or near ACM without consultation with above person(s). WF asbestos management plan to be consulted before any building work/maintenance carried out. Asbestos warning signs where-ever tested asbestos found. <p><u>G:\Projects\Approved\A20 Woolley Firs\Construction\WF Properties & Site\asbestos\asbestos mgt plan</u></p>	<p>Unlikely x very harmful = moderate</p>
<p>Petrol & flammable chemicals</p>	<p>BBOWT workers</p>	<p>Risk of fire or poisoning</p>	<ul style="list-style-type: none"> Petrol, oil and mixed on site 2-stroke stored in marked containers and within a locked cabinet in the barn (also locked) (COSHH Compliant). No power machinery to be left with fuel in it when stored. 	<p>Unlikely x harmful = slight</p>
<p>Pesticides</p>	<p>BBOWT workers</p>	<p>Risk of poisoning</p>	<ul style="list-style-type: none"> Stored in marked containers within a locked cabinet in the Workshop (also locked & alarmed) (Comply with CoP 8 Pesticides). No chemicals to be left in spray containers while in storage (COSHH Compliant). 	<p>Unlikely x harmful = slight</p>
<p>Toilet Block</p>	<p>Public, school groups, visitors, BBOWT staff</p>	<p>Fire Feminine Hygiene Sickness/diarrhoea Burns from hot water</p>	<ul style="list-style-type: none"> Bins to be emptied daily. Feminine hygiene bins provided by contractor and emptied monthly. Hand soap provided, toilets to be cleaned regularly every other day as a minimum. 'please wash your hands' signs. Thermostatic control on hot water tank, 'Caution hot water' signs. Tool available to BBOWT staff to open cubicle doors in case of emergency. 	<p>Likely x slightly harmful = slight</p>
<p>Aircraft crash (e.g. forced landing by light aircraft from nearby White Waltham Airfield or similar)</p>	<p>Public, school groups, BBOWT workers, contractors, pilots</p>	<p>Injuries resulting from forced landing (dependant on speed of aircraft on impact). Could include wide range of outcomes from bruising, burns, spinal injury through to severe injury or death.</p>	<ul style="list-style-type: none"> In the extremely unlikely event of a downed aircraft, the emergency services should be called (see details below). Secondly, White Waltham airport should also be called (see contact details below). Before approaching a downed aircraft and at all times relevant Codes of practice must be adhered to (1,2,3,4,10,29). 	<p>Unlikely x Very harmful = moderate</p>

	Slight harm	Harmful	Very harmful
Unlikely	Trivial	Slight	Moderate
Likely	Slight	Moderate	Substantial
Very likely	Moderate	Substantial	Intolerable

Waste and Recycling	Public, school groups, visitors, BBOWT staff	If left unmanaged could be a fire hazard. If handled inappropriately could cause mild stomach upset.	<ul style="list-style-type: none"> All waste to be contained in relevant bins on site. Waste and recycling bins to be emptied once a week. Food waste (no meat/fish/cooked items) to be deposit once a week in compost bin by Plant Room. Food waste containers to be washed weekly. 	Unlikely x slight harm = trivial

Work identified from site risk assessment	By whom	Date completed
Carry out tree safety assessments	Reserves staff	Annual
Ensure safety notices are posted (livestock grazing, tree work, path works, contractors machinery present, dog poo/lead)	Reserves staff/ contractors	As required, ongoing
Task/work party leaders convey relevant information to participants	Reserves staff/Ed staff/community staff	Each day as necessary
On days schools are visiting; always carry out an early morning check of areas to be used.	Education Manager / Education trainee	Daily as necessary
Check pupil medical notes provided by school prior to visit	Education Manager	Daily as necessary
Ensure farmer is informed when groups are using arable fields so he can advise of any danger or change the timing of the hazardous activity if necessary	Education Manager	As necessary
Put out 'Children crossing' signs on Entrance 1 driveway	Education Manager / Education trainee	Daily as necessary
Fire alarm system check	Facilities Manager (Berks)	Weekly, on-going
Legionella – water readings	Facilities Manager (Berks)	As appropriate, on-going
Emergency lighting checks	Facilities Manager (Berks)	Monthly, on-going
Fire evacuation drill	Facilities Manager (Berks)	Bi-annual, on-going
Fire extinguisher service	Facilities Manager (Berks)	Annual, on-going
Electrical PAT testing	Facilities Manager (Berks)	Annual, on-going
Periodic Electrical Testing (fixed wiring)	Facilities Manager (Berks)	Every 5 years

This checklist is designed to assist in the production of Site Risk Assessments. For those hazards present, more specific information should be provided, e.g. location within site and precautions required entered on SRA form. **This list is not comprehensive. Map is located in reserves office.**

No.	Risk	Present		Recorded on map
1	Steep slopes and banks	yes		1
2	Drowning risk – deep water [pools, streams, rivers]	yes		2
3	Fall hazards – rock outcrops, buildings, building foundations	yes		3
4	Areas liable to flooding		no	
5	Areas of permanent soft ground		no	
6	Areas of soft ground following rain	yes		various
7	Uneven path / track surfaces	yes		4
8	Uneven ground	yes		various
9	Remote areas		no	
10	Dry weather fire hazard – heath, scrub, grass		no	
11	Sun exposure – poor shade - burn / dehydration	yes		various
12	Site used for walking [Inc dogs]	yes		5
13	Children playing		no	
14	Site used for horse riding		no	
15	Site users include people with mobility problems		no	
16	Site history of abuse [drunks, vandals, drugs, needle stick injury]		no	
17	Site history of staff and/or volunteer intimidation		no	
18	Fly-tipping		no	
19	Unauthorised and/or authorised shooting [i.e. poaching/stalking]	yes		farmland
20	Unauthorised vehicles [cars and motorbikes]		no	
21	Difficult or restricted access / egress [esp. for heavy plant]		no	
22	Authorised vehicles	yes		farmland
23	Areas inaccessible to vehicles	yes		arboretum
24	Former landfill site		no	
25	Proximity to public highway	yes		6
26	Proximity to Public Rights of Way	yes		7
27	Overhead service lines	yes		8
28	Underground service lines	yes		See separate maps
29	Barbed wire	yes		farmland
30	Personal hygiene facilities	yes		offices
31	Poisoning from blue / green algae		no	
32	Exposure to bracken [carcinogenic spores] (see CoP 15)		no	
33	Puncture wounds [blackthorn / hawthorn]	yes		hedges
34	Wild parsnip burns		no	
35	Giant hogweed burns (see CoP 15)		no	
36	Poisonous berries	yes		various
37	Poisonous fungi	yes		various
38	Standing dead wood	yes		arboretum
39	Risk of Weils' disease (see CoP 15)	yes		various
40	Site known for wasps	yes		Various
41	Site known for bees	yes		9
42	Site known for hornets		no	
43	Site known for adders		no	
44	Site known for stray dogs	yes		various
45	Site known for ticks [Lyme disease] (see CoP 15)		no	
46	Site known for allergens [pollen / spores]	yes		all
47	Injury to pregnancy – exposure to lambs [listeria, chlamydia]		no
